

Web and Distributed Programming

Instructor: Eric Pogue

Session: 9

Agenda:

1. Friendly Conversation & Good Natured Banter
2. Review Assignments
3. JavaScript Basics
4. Assignments and Pre-lab Wrap-up
5. Week 4 Lab: Course Schedule with (external) CSS

Discussion & Questions welcome at any time... please be present with no phones or email during our discussion time

New Terminology:

Deploy: Put the assignment / product into an environment... nearly all commercial applications have at least three environment including development, test, and production

Release: Provide access to a group of users

Assignment Due Today

Assignment:

- Project 1

Links:

https://www.w3schools.com/html/html5_intro.asp

JavaScript Basics

Assignment for Wednesday

Assignment (before next class):

- Finish Project 1 if you haven't already
- Ch.4.1 to 4.6 of Sebesta

Pre-Lab Wrap-up

Wrap-up:

Project 1 due Wednesday... what more can I say

Are the videos something that we should incorporate into our class regularly?

Week 4 Lab: Course Schedule with (external) CSS

I have made the solution to our Week 3 lab available. My strong suggestion is to do your best on your own and using “normal” resources available to you (Web, classmates, etc.) and then use the solution as a last resort.

End of Session

Course Number: CPSC-24700
