

Discussion & Lecture Video – Week 2

Regrettably we had some technical difficulties in recording this week's discussion and lecture video. I had to split it into three parts to make cover make it easier to view and to cover the topics. Note that the third part was created after the discussion and lecture session to wrap things up so even those that attended have not seen these items.

Steps to watch the discussion and lecture video:

1. Watch the first 30 minutes of Part 1 [\[link\]](#). After 30 minutes, we started to have audio problems. You can safely ignore everything in Part 1 after the 30 minute mark as I repeated them in Part 2.
2. Watch Part 2 [\[link\]](#). It is a little fuzzy as we were still having some recording issues; however, it doesn't look too bad.
3. Review my wrap-up recording [\[link\]](#).

Let me know if you have issues viewing the videos or if there are additional follow-up questions.
