Web and Distributed Programming

Instructor: Eric Pogue
Session: 7

LEWIS UNIVERSITY
A Catholic and Lasallian University

Agenda:

1. Friendly Conversation & Good Natured Banter… TBD
2. Review Assignments
3. Check in with Ivan & Karl on Project 2 setting up a Website on Azure… thank you Ivan and Karl!
4. Cascading Style Sheets (CSS)
5. Assignments and Pre-lab Wrap-up
6. Compare your Week 3 Lab implementation to the posted solution
7. Deploy Assignment #1 to our "test" environment

Discussion & Questions welcome at any time… please be present with no phones or email during our discussion time

New Terminology:
Deploy: Put the assignment / product into an environment… nearly all commercial applications have at least three environment including development, test, and production
Release: Provide access to a group of users

Assignment Due Today

Assignment:

- Complete Ch.3 of Sebesta (CSS)

Links:
https://www.w3schools.com/html/html5_intro.asp

Cascading Style Sheets (CSS)

Time check… we need to start our Lab at 2:30.
Why have I changed the "Worldwide Web" to the "Internet"? By the end of this class it is your responsibility to know the difference.
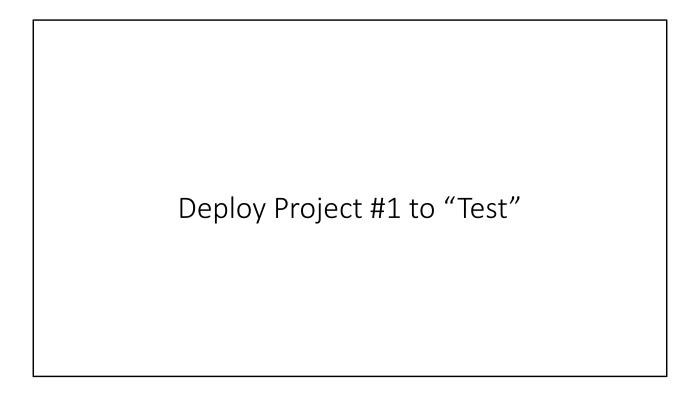

Assignment for Monday

Assignment (before next class):

- Complete Ch.3 of Sebesta

Pre-Lab Wrap-up

Wrap-up:

Quiz 1 comments

Project 1 due next Wednesday... submit it early

Are the videos something that we should incorporate into our class regularly?

Week 3 Lab Solution:
Course Schedule

I have made the solution to our Week 3 lab available. My strong suggestion is to do you best on your own and using "normal" resources available to you (Web, classmates, etc.) and then use the solution as a last resort.

Deploy Project #1 to "Test"

I have made the solution to our Week 3 lab available. My strong suggestion is to do you best on your own and using "normal" resources available to you (Web, classmates, etc.) and then use the solution as a last resort.

End of Session
